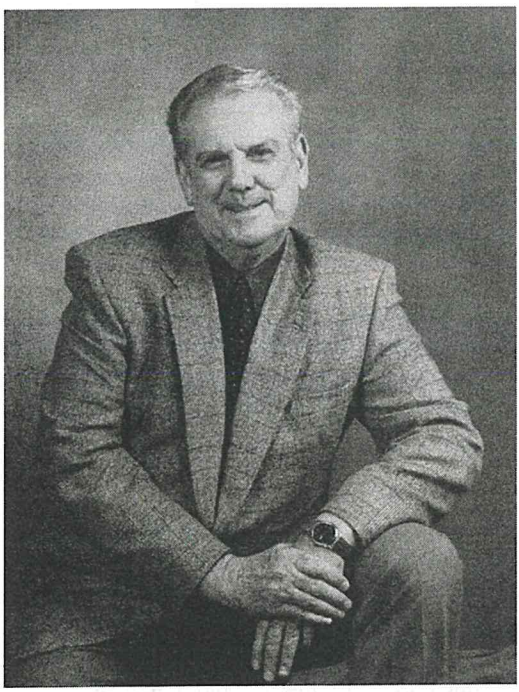
About The Author

A late starter in record collecting, Ron Hall purchased his first 45 just prior to his 14th birthday. "Tijuana Jail" b/w "Oh Cindy" was just the start of his fascination with music. When his parents held house parties he discovered a wealth of "Old Gold" in the 78's his older cousin Don and his wife Bev would bring over. Elvis' "Don't Be Cruel" was one of his favorites along with Bill Haley's "Rock Around The Clock".

Eager to hear more the radio was his next avenue of experience. There were two prominent Toronto radio stations at the time. CHUM and CKEY. Although they were basically playing the same music Ron was more attached to CHUM because of evening D.J., Dave Johnson. The collecting had started, mostly Rock & Roll but ooh, those instrumentals; "Tequila", "Sail Along Silvery Moon", "Sleep Walk", "The Happy Organ", "Guitar Boogie Shuffle" and of course Duane Eddy's "Cannonball" which was used as a feature by Dave Johnson, called "Johnson's Wax".



Ron started collecting the CHUM Charts in the spring of 1959 and continued well into the sixties. The record collection grew not only with Rock & Roll records, but with Country records as a lot of them were crossovers onto the Pop charts.

By the mid sixties, Ron had joined the Metropolitan Toronto Police and spent 25 years working the streets of northern Etobicoke in 23 Division.

The fascination with music continued and by the eighties he had discovered an American by the name of Joel Whitburn appeared to have his same passion for collecting and had published a book on the music from the American "Billboard" charts that was a great reference tool to collecting, sorting and filing records.

Ron decided to publish a book on the CHUM Chart but there was no interest in financing such a proposition. When all attempts failed Ron became the author, publisher and distributor of "The CHUM Chart Book". The book was well received and there were two editions printed. The book has been unavailable for almost ten years and now it is back in print to celebrate the 50th Anniversary of The Chum Chart.

It was lunchtime at Bathurst Heights Collegiate in North York on May 27th, 1957. I think it was a Monday. A friend of mine came up to me and said that there was a new station and all it was playing was the hit parade. I didn't believe it but, when school let out at 3:10pm, I rushed to my Austin A-40 and turned the radio to this 'new' guy at 1050. I don't need to say AM because there was no FM then.

WOW!!! It was true. The first song I heard was "Yes Tonight, Josephine" by Johnny Ray. I heard Elvis and Pat Boone, Johnny Mathis, The Diamonds, Chuck Berry and a jock named Phil Stone. I heard jingles and a radio station that was directed to me, a 17 year old kid who used to stay up late to hear the Top 50 at midnight Friday nights on CKEY, because that's all there was! Well, it was all I needed.

I started visiting Hank Noble, the all night guy working alone at 250 Adelaide Street. After a short while, he let me operate for him. I was bitten! I got a job doing commercials over the parking lot speakers at Lawrence Plaza and was heard by an 'EY jock named Gerry Meyers. Through his efforts, I got a job in Simcoe, Ontario in September 1957 and in May 1958 I became the all night guy at CHUM, taking over Hank's chair at 250 Adelaide Street. I stayed on the air at 1050 CHUM until the summer of 1970 when I became manager of CHUM-FM. But the music, the fun and excitement of being part of CHUM, can never be fully explained.

One of the most important things we did that put CHUM on the map was the CHUM Chart. Beginning with that eventful day in May of 1957 until the end of April 1975, we published about 100,000 charts a week that were distributed (in the early days by the disc jockeys) to every record store in Toronto and environs. We called the record stores every week and asked for the records that were selling for them and compiled a chart. One could argue its accuracy but who cared. It was 'the bible' every single week. Record stores started displaying the hits in the order of the CHUM Chart and it soon became obvious that if CHUM didn't play it, it just wasn't a hit and, if CHUM did play it, the listeners bought it.

Back in the day, CHUM was the first thing you ran to at the CNE or the Sportsman's Show, to meet the jocks and pick up a chart or a picture or a badge or a button. We had huge audiences...mostly school kids, but their parents too. My CHUMusic were those terrific records we played from 1957 to 1970.

Enjoy all the information and pictures in this book. My very special thanks to Ron Hall for all his work. Now, we can enjoy that great CHUM era again.

Parson's Appliances in Brantford. That was where, as a kid, I picked up my very first CHUM Chart. From that point on I collected them week by week; in Brantford, Orangeville, Waterloo, Hamilton and then... as they came off the presses, at 1331 Yonge Street. I was beside myself when my picture appeared on the front cover of the September 6, 1969 issue. Me, on the CHUM Chart!

That chart was respected throughout the radio and records industry. For a record company it meant revenue, as it did for artists, as well as respectability. It could mean a United States signing, a contract extension or additional live appearances. Thus, it was not a responsibility I took lightly when by the mid 70s I was part of the team that compiled the CHUM Chart listings, from sales and requests. The CHUM Chart was the bible of the Canadian music industry and watched with curiosity from the United States as well as Europe.

It was a sad day, when in 1975, the pocket sized chart was discontinued, but the wall sized chart continued to be displayed in music stores and was also published in Toronto newspapers. Today, the CHUM Chart tradition continues on 104.5 CHUMFM with a weekly countdown of Toronto's top hits.

The Golden Years of the CHUM Chart are represented in meticulous detail in this 50th anniversary edition of the CHUM Chart book. My personal thanks to Ron Hall for preserving and detailing the statistics that have followed us throughout our various stages of life.

I hope this book brings back precious memories for you as it for me.

The CHUM Chart Story

Like the movement of the songs it tracked every week, the CHUM chart was a constantly evolving entity.

The first CHUM chart was dated May 27th, 1957, the same day that the former dawn-to-dusk station increased its power and became Canada's first 24-hour "Hit Parade" radio. It listed the top 50 songs of the week. Elvis Presley's "All Shook Up": was the first number one song. It was also the first song played when CHUM switched to rock and roll. For the week of November 25, 1957, the CHUM chart shrunk to nearly half of its original size. The charts' original front cover design had a cat named Clementine, wearing headphones and playing records in front of caricatures of the CHUM air personalities. The cat became a kangaroo for the January 25th, 1960 chart. At the time, the kangaroo was being used for a billboard and subway campaign advertising CHUM as being 'one jump ahead' of the competition. The kangaroo cover lasted until December 25, 1961 when it was replaced by a giant music note with the CHUM disc jockeys clinging to it. On the 6th anniversary of the CHUM chart, May 27th, 1963, the music note disappeared and was replaced with various CHUM contests, promotions, upcoming events and pictures of the DJ's.

The inside of the chart underwent changes over the years as well. Along with the Top 50 song listings, there was a 'TOP TEN ALBUMS" chart; "CHUM'S PAST TENS", a look at hits of the past; "THE MOOSE PARADE", top country hits as played on CHUM by country DJ Moose Latrek (who in reality, was CHUM's Production Manager Fred Snyder). From May 1963 until March of 1967, there was "POP PIX", which featured a small picture plus a short profile of a current chart artist; the "CHUMDINGER", the song that made the biggest jump each week (the very first CHUMDINGER was "Mother-In-Law" by Ernie K-Doe in 1961); "CHUMBUG CLUB" numbers, where members could win a current album; and CHART CHUCKLES", a listener submitted joke-of-the-week.

The most drastic change to the CHUM chart occurred on August 10, 1968. The chart became smaller in size and even smaller in scope. The top fifty songs were reduced to the top thirty. These charts were labeled as "Collectors Issue # 1" and so on each week, although that was eventually changed to coincide with the actual number of charts issued (but someone had obviously miscounted as they were always 5 numbers behind). The final personal pocket chart, "Official Issue # 932" was dated April 26, 1975. After that, the weekly CHUM chart appeared in local Toronto newspapers.

The CHUM chart was more than just listings of the top songs of the week, it was a snapshot of an era, of a time when AM radio played a major role in our lives. And 1050 CHUM was the station to listen to in Southern Ontario.

1050 CHUM...Forever.

Explanations

Date Peaked: Indicates the date the song first reached it's peak position on the chart. The dates are set as: "year/month/day". Since data used in the publication goes back to January 1957, you will run across peaked dates prior to 57/05/27 (the first CHUM Chart). For more information see "Top Hits Of 1957" on page ten.

HP: Indicates highest position the song reached on the chart. All of the number one songs have the number # 1 knocked out of a black circle and a superior number to the top right indicating the number of weeks it remained at the number one position.

WC: Indicates the number of weeks the song was charted.

Artist-Title: This section lists every artist that charted a song on the "CHUM Chart" from 1957 through 1986. Each artist's song titles are listed in chronological order and the entire line being highlighted indicates the song that made it into the Top Ten.
As an added feature the Canadian content MAPL logo appears in front of each song title that it applies to. Some of the early MAPL information (1957-1964) may not be complete but every song noted does qualify as Canadian content for airplay.

Yearly Rank: Every record was sorted by year, being the first week it reached it's peak position. Then all songs for each year were sorted and given a yearly ranking by placing all number # 1 records in order first by how many weeks at number one. If two or more songs tied they were then sorted by how many weeks they reached the # 2 position, etc. This was done for every peak position until the entire year was calculated.

CHUM Rank: CHUM's official "Top Hits Of The Year" were published in the CHUM charts in January of the following year, starting with the "Top 63 of '63". These lists continued through the "Top 67 of '67". The first Top 100 appeared for 1968 and continued through 1985 with the exception of the "Top 82 of 1982", "Top 83 of 1983" and "Top 84 of 1984".
There were 53 songs that wound up being listed in the Top 100 for two consecutive years. Those songs are only listed once in the CHUM ranking, usually in the year that they held the highest position.
There were six songs in 1974 and five songs in 1979 which wound up in the Top 100 of the Year which were probably received airplay but were never charted.
Included in this column are lists unearthed from listeners who noted the countdowns as they were aired as the "Top 58 of '58", Top 59 of '59" and "Top 61 of '61". There was no countdown for 1957 or 1986, so the only years missing are 1960 and 1962.
It is interesting to note that there was a tie for the # 1 song of 1958 – "Volare (Nel Blu Dipinto Di Blu)" by Domenico Modugno and "The Chipmunk Song" by David Seville & The Chipmunks.

Label & Number: Indicates the original Canadian label and number of the song as it appeared on the CHUM chart. Some records did appear on more than one label at the time they were charted but only one label is shown in this data.

The Top Hits of 1957

The first chart issued was dated May 27, 1957 and the last chart issued was dated June 7, 1986. A chart was prepared for June 10, 1986 but never issued. Data used in this publication covers the **complete year of 1957** through June 14, 1986

Chart information prior to May 27, 1957 was taken from Billboard magazine to complete the year. Billboard had a "Territorial Best Sellers List". Toronto was the only Canadian city to be included each week. The list varied from 5-10 records per week.

There are 28 records which Billboard chart positions were used to determine the yearly rank. These 15 records were never charted on the CHUM Chart but were played on the radio prior to the first chart. The chart dates were Saturday until April 20 then switching to Monday on April 29, 1957

Hey! Jealous Lover – Frank Sinatra - January 12 # 2
